

## About Lions

Lions Clubs began in the USA in 1917, and now boast a worldwide membership of over 1.3 million people in more than 200 countries. The first Australian Lions Club was formed in 1947, and there are now more than 1,400 clubs with 30,000 active members across the country. At Lions the emphasis is on community service. There are many established Lions programs operating at local, national and international level such as sight conservation, drug education and disaster relief, however every Lions club has its own focus and initiatives depending on the needs of the local community.
